El Camino to Open Recreational Facilities in Annual Program

El Camino College will open its recreational facilities, a deep and shallow pool plus gymnasium and playing fields, to the public again this summer in its annual summer recreation program.

Beginning with registration for swimming instruction on June 21 at 8 a.m. in the Campus Center, the program gets under way June 23.

Highlighted by swimming, instructional and recreational, and outdoor sports, the program is designed for anyone from seven years of age and up. For any age, the minimum height acceptable for swimming instruction or recreational swimming without a parent is 52 inches.

Under the guidance of college physical education instructors, swimming lessons will be given during five periods this summer.

The first period will run from June 23-July 3, followed by periods running from July 7-July 18, July 21-Aug. 1, Aug. 4-15, and Aug. 18-29.

Tickets for the first three instruction periods will be on sale during registration June 21. Tickets not sold at registration may be purchased in the business office of the college.

Children must be present when tickets are purchased for them. This regulation has been established to prevent groups from purchasing large numbers of tickets and then failing to fulfill the quota, thereby keeping other children from the opportunity to participate in the popular program.

All swimmers must furnish their own suits and towels and

Father-Son Dinner Held

Stephen M. White Junior High School held its second annual Father-Son Night Thursday with approximately 400 fathers and sons attending the affair which was sponsored by the boys' physical education department.

The program consisted of games, community singing, film highlights of the 1957-58 L.A. Rams football games, a comedy trampoline act, and a judo exhibition of the Ogden Judo School of Long Beach. Marvin Goux, presently assistant line coach at USC and

the only football player in USC history to twice win the "Most Inspirational Player Award," was guest speaker for the evening. His talk covered the importance of attitude, training, and sportsmanship in relationship to success in sports and everyday living.
